

Team Leeds Hearts and Minds

An engagement and development programme to shape the way we work together to improve people's outcomes and experience of health and care in Leeds.

As Team Leeds we can:

- Better integrate our health and care system and embed person-centred care.
- Help reduce health inequalities and improve health outcomes.
- Improve the experience, support, and satisfaction of our workforce.
- Make better use of the Leeds £.

Get involved

All health and care workforce, students, and local people, are invited to shape Team Leeds: www.leedsheartsandminds.org.uk

Aims

Encourage our health and care workforce to *talk, listen* and *connect* with each other across teams, functions and partners.

Recognise the unique experiences of our health and care workforce and students during the pandemic.

Enable our health and care workforce, and local people, to enhance the Team Leeds culture, and influence how we can all work even better together.

Learn from health and care workforce experience to build on success, to make improvements, and strengthen the delivery of person-centred, joined up health and care.

Create shared opportunities for workforce development that enables a Team Leeds culture to flourish.

We connect with others through the Virtual Networking Club.

I respond to the online survey.

I share my Team Leeds stories to inspire others.

We will talk, listen and connect through a Team Leeds Chat (TLC).

I take part in shared development opportunities.

I am part of the Big Leeds Chat.
